

Tap Water Rap

Written by Byron Morton/ Images Puppet Productions Inc. 2012

Verse One

When I get real thirsty
And I really need a drink
I grab myself a glass
And go to the sink

I turn the water on
It comes out nice and cold
Pour myself a glass
But I've been told

That the tap water's clear
The tap water's clean
Now this is true
And I'll tell you what I mean
(Tap Water Rap Break)

Verse Two

Our water is tested
Several times a day
It keeps the water pure
And the bad stuff away
Don't be fooled what people may say
Our tap water's clean
And I'll drink it any day

In the Minnesota State
Good News is going on
Our tap water's clean
That's why I sing this song
(Tap Water Rap Break)

Verse Three

We don't want plastic bottles
In the landfill you see
Taking care of the planet
Sounds okay to me

So save yourself a dollar
Save yourself a dime
For pennies a day
It's tap water all the time.

So when you drink tap water
You're doing the right thing
I love tap water
And that's why I sing ya!

Drink Tap Water
That's where it's at
Now that's the end of my song
The Tap Water Rap
(Tap Water Rap Break)
